EDUCATION

Eulogio “Amang” Rodriguez Institute of Science and Technology

Bachelor of Science in Computer Science

Manila, Philippines

2021 – 2025

The National Teachers College

Senior High School – ICT Strand

Manila, Philippines

2018 – 2020

EXPERIENCE

Nexvision Innovations Inc.

Full-Stack Software Developer

BGC, Philippines

Sep 2025 – Present

- Spearheaded development of 8+ client-facing web applications using React, TypeScript, and Tailwind CSS, reducing delivery timelines by 30%
- Architected an enterprise payroll platform (Next.js 14, Supabase) with NFC attendance, semi-monthly payroll automation, and 3 role-based portals serving 50+ employees
- Provisioned and managed Linux VPS infrastructure (Contabo, GreenGeeks); configured Nginx, MariaDB, and automated CI/CD pipelines via GitHub Actions
- Hardened server security (UFW, Fail2Ban, SSH), deployed mail infrastructure (Postfix, Dovecot, Rspamd), and managed SSL/DNS for 8+ domains
- Mentored 7 junior developers through code reviews and pair programming, improving team code quality and sprint velocity
- Supported WordPress projects via custom theme development

Alpha Premier Group of Companies OPC

Junior Full-Stack Developer Intern

Ortigas, Philippines

Mar 2025 – Jun 2025

- Developed and shipped 3 client websites using HTML, CSS, JavaScript, PHP, and MySQL, each delivered ahead of deadline
- Built backend systems for form handling, input validation, and MySQL database integration, reducing manual data entry by 40%
- Implemented CRUD operations and server-side data processing for internal tools, streamlining content management workflows

PROJECTS

EARIST Cavite 3D Campus Guide

Unity3D / C# / Google Cloud APIs

- Engineered an interactive 3D campus navigation system using A* algorithm for pathfinding and Ray-Casting algorithm for obstacle detection for real-time route computation
- Integrated speech-to-text/text-to-speech voice assistance and custom NLP algorithm with 1,500+ phrase patterns for location detection

NexVision Payroll – Enterprise HR & Payroll Platform

Next.js 14 / TypeScript / Supabase

- Engineered a full-featured payroll system with NFC-based attendance tracking, automated semi-monthly payroll computation, automated email notifications for payroll events, and digital payslip generation with e-signatures
- Built 17+ admin dashboard pages covering real-time KPIs, employee management, leave/OT approvals, audit logging, and PDF report generation

Personal Money Management System

React.js / Node.js / Supabase

- Developed a full-stack finance tracker with savings jars, income/expense logging, transaction history, and an admin analytics dashboard

BeautyConnect – Booking & Order Platform

WordPress / PHP / JavaScript

- Delivered a custom WordPress booking system with structured multi-field intake forms and admin-side order processing workflow

CERTIFICATIONS

Microsoft Full-Stack Developer Professional Certificate — Microsoft (via Coursera)

Jan 2026

IBM DevOps and Software Engineering Professional Certificate — IBM (via Coursera)

Feb 2026

Machine Learning Operations (MLOps) for Generative AI — Google Cloud Skills

Dec 2025

Machine Learning with Python — freeCodeCamp

Jan 2026

Academy Accreditation - Generative AI Fundamentals — Databricks

Jan 2026

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React.js, Next.js, Vite, React Native, HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap

Backend: Node.js, Express.js, C#, PHP, Python; MySQL, MongoDB, Supabase, REST APIs

DevOps & Cloud: Linux, Nginx, Docker, GitHub Actions, CI/CD, aaPanel, UFW, Fail2Ban, SSL/DNS, VPS (Contabo, GreenGeeks)

Tools: Git, Vercel, Netlify, WordPress, Elementor, Figma, Unity3D, Blender

Languages: English (Professional), Filipino (Native)

Interests: System design, UI/UX optimization, performance engineering, AI integration, scalable web platforms
